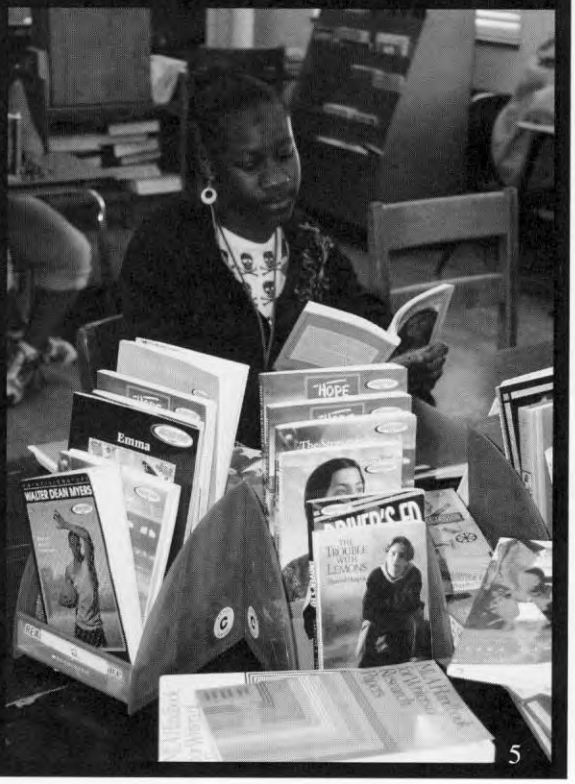
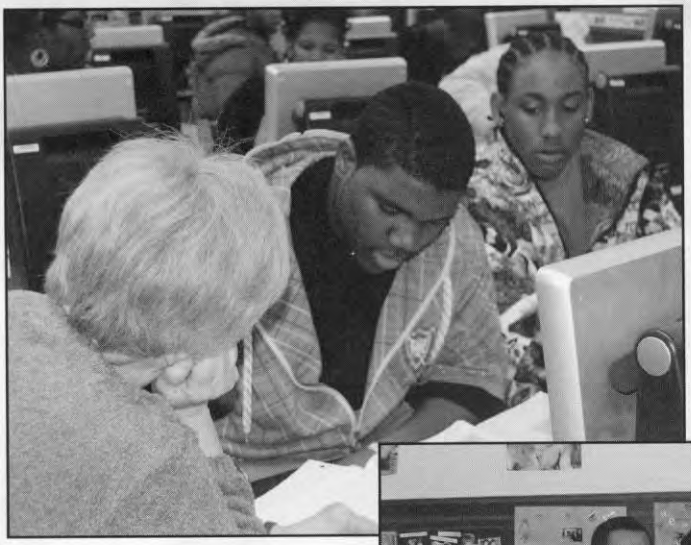
What we study!

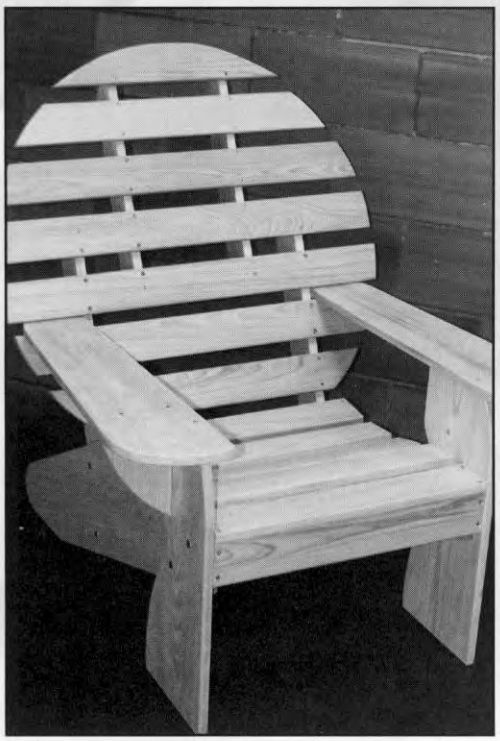


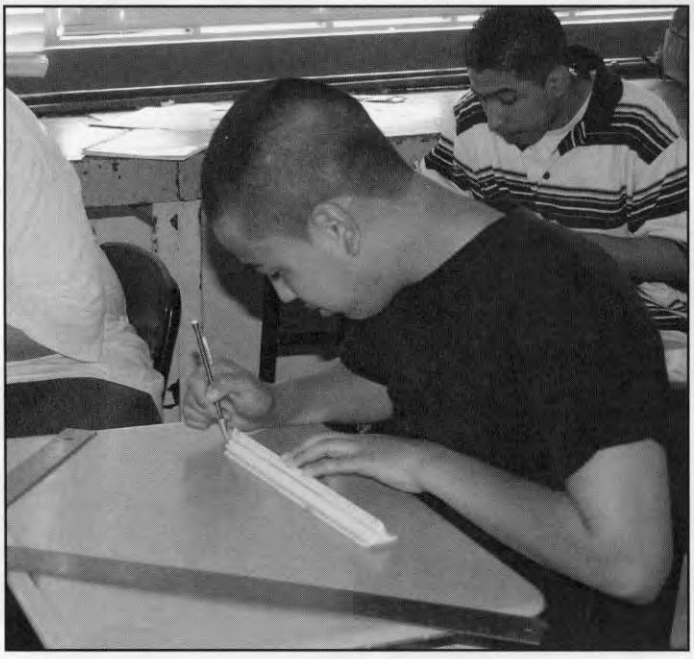
Business Academy

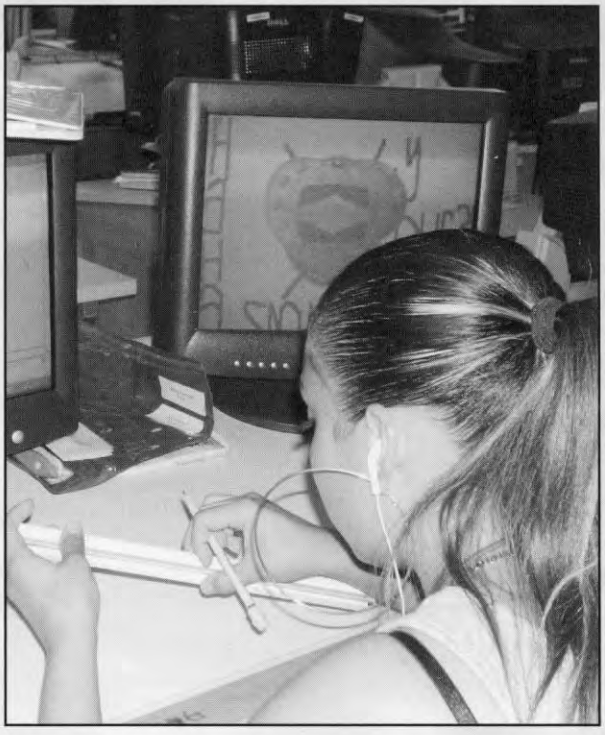
Having business skills is the foundation for being successful in a for-profit or not-for-profit organization. Understanding budgeting, finance and accounting; sales, marketing and advertising; and personnel issues are all important parts of a company's operation. These are the skills developed by students in the Business Academy.



Through DECA Club and class related activities like Market Day, students learn to develop, make and market products. Business students learn through practical application of skills.





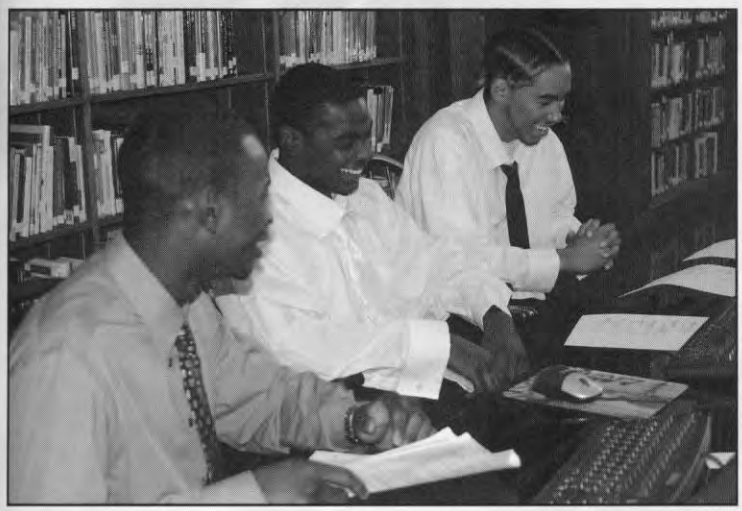


F.A.S.T.

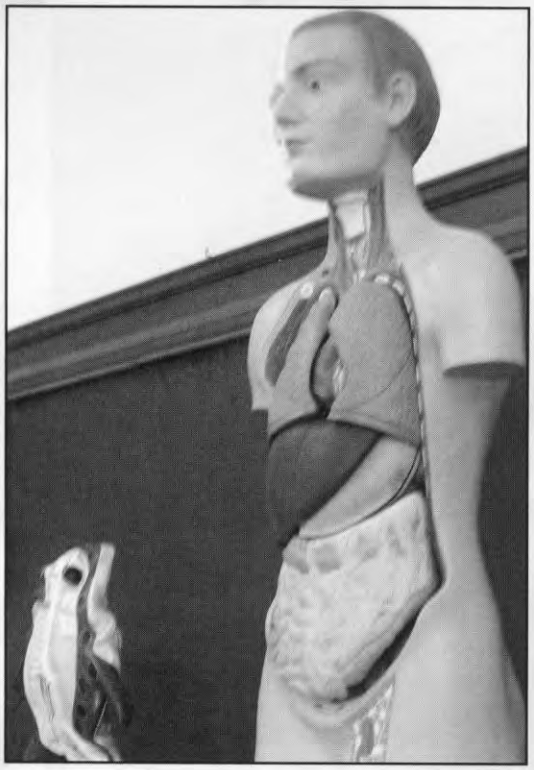
The Foundations in Applied Skills and Technology SLC is changing its focus rapidly. As more of the machinery and equipment used in making both wood and metal products moves to computers, the skills being developed by students are becoming more electronically oriented. From product design to manufacturing the real world workforce is computer oriented. That means computer maintenance and software development are also becoming critical skills.

Global Communications

The name Global Communications truly represents the focus of this SLC. Students study the culture of people around the world examining their language, arts, heritage and geography. Using journalism skills and experiences in publications and broadcasting students develop a basic knowledge of media to better communicate with others.



INDIAN WAR

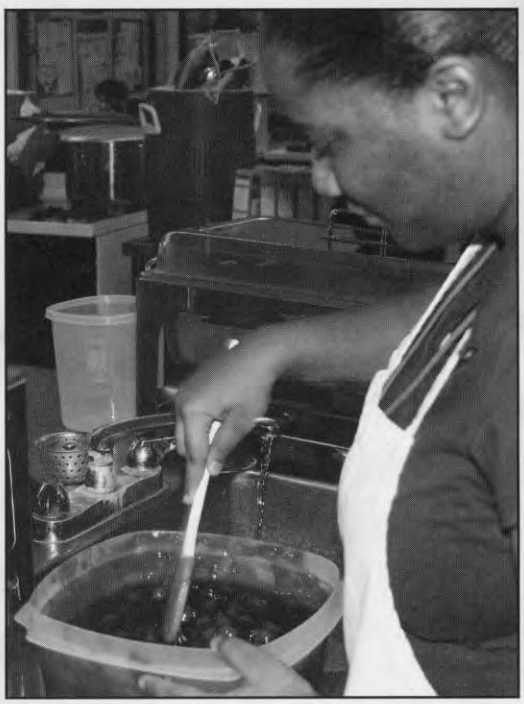


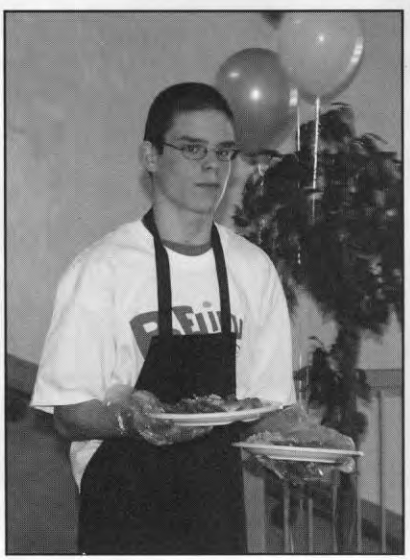
Health

Careers in medicine and science are the focus of the Health community. According to Mr. Murray, coordinator, "Our goal is to prepare students for careers in nursing or as doctors." With this foundation students can also enter allied health fields as technologists or work in science fields such as biology, chemistry or physics. There is also a variety of future work settings including hospitals and clinics, medical offices or research labs.

Hospitality

Hospitality students are most visible when they are cooking and serving meals and refreshments at school and community events. In addition to learning about cooking and catering they develop skills needed in the travel or hotel industry including marketing.





FRESHMEN

DISCIPLINE
Name
Class
Block
Date

Performing Arts

The focus in the Performing Arts community is on the performance aspect of the world. Students learn to play instruments and play in bands and ensembles and participate in theater productions and vocal choirs. During the year there are many opportunities to perform with the marching band or pep band at games, in plays or in concerts.

Visual Arts & Techology

The beauty of art in many forms enhances our environment and is a part of our daily life. VAT students learn the elements of design and work with many media, such as paint, pencil and clay, to create art. Design is also used in graphic arts and in electronic media production. Students use computers to produce posters and printed materials and design products. Also to develop software and computer games.

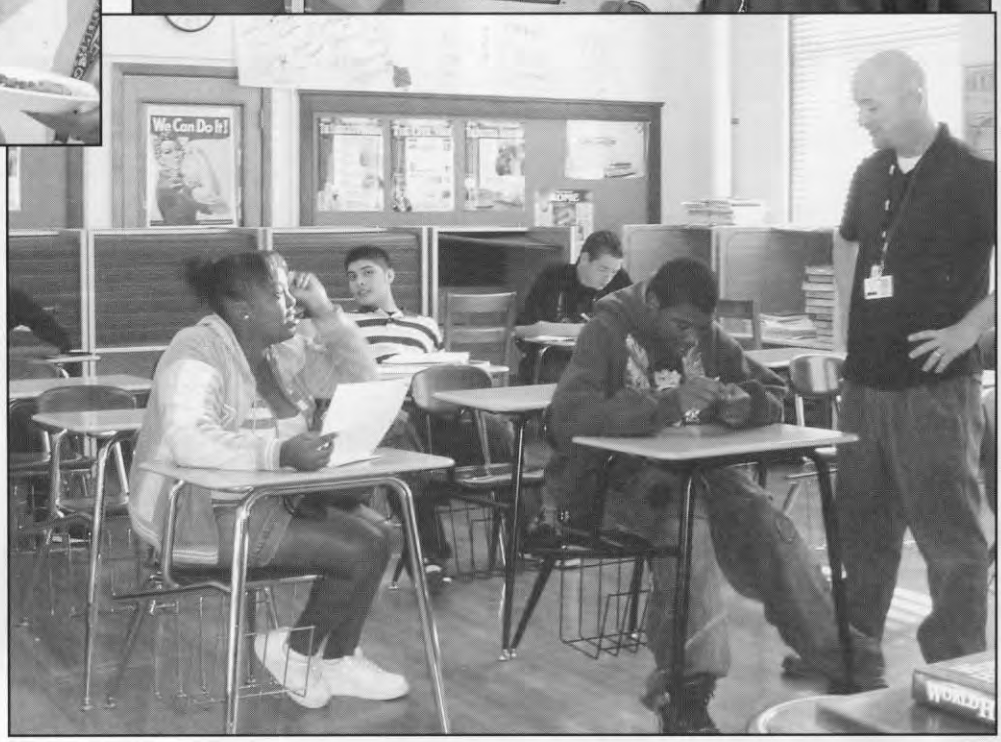
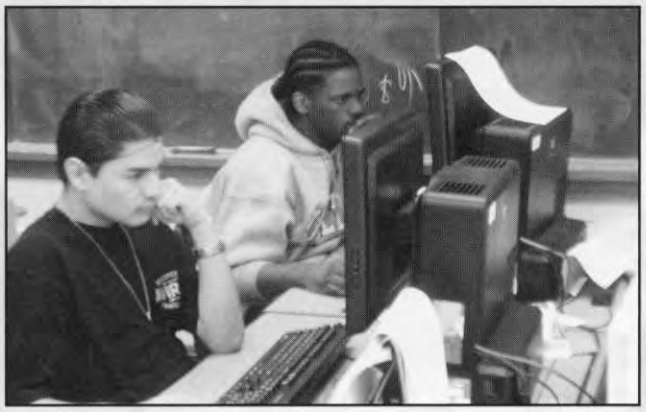
Opportunity Center

Adjusting to high school life can be difficult. When freshmen struggle, there is a special program that was developed to help them succeed. The Opportunity Center provides an opportunity to learn in a small class setting and get back on track earning credits that have been lost.



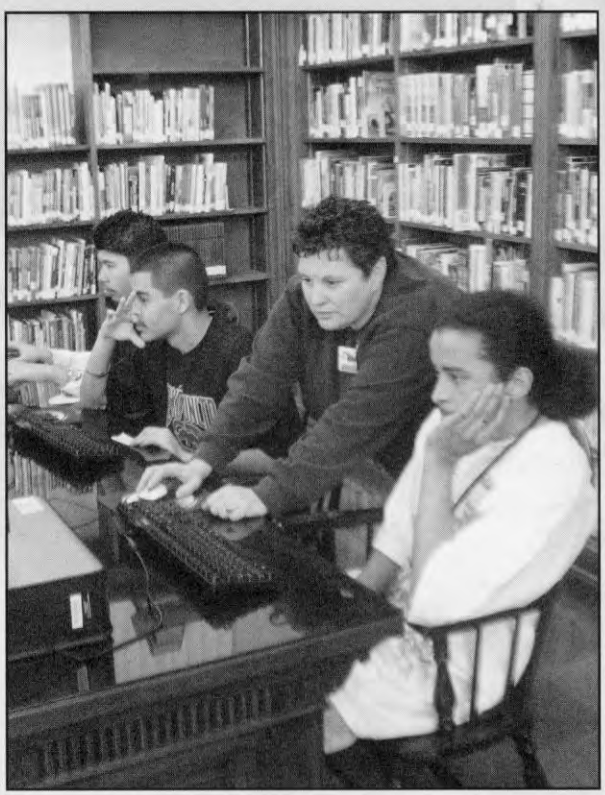
Elective Lane

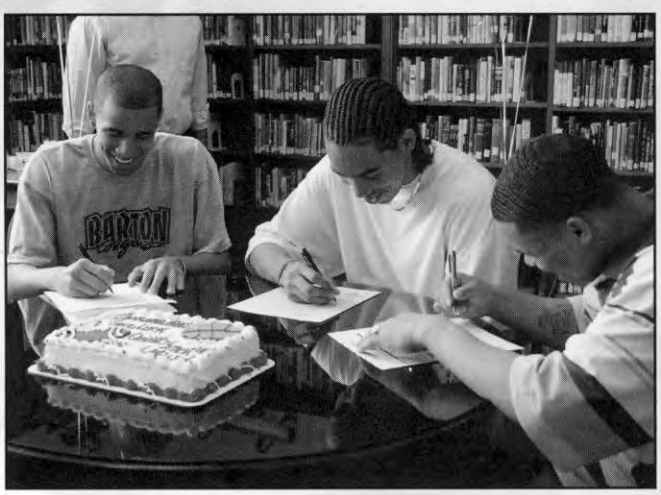
Sometimes gym, art or computer classes are a time to interact with students from other communities. Elective Lane classes group all SLC's together for general classes like speech or art.

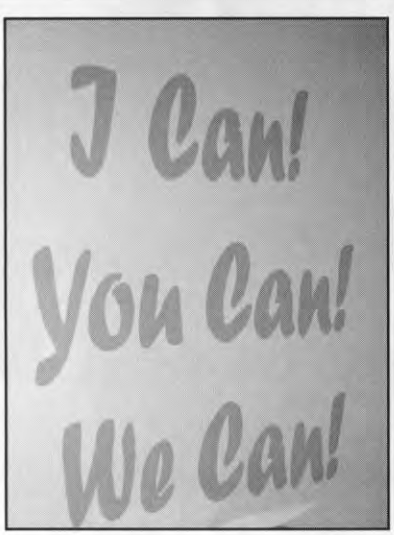


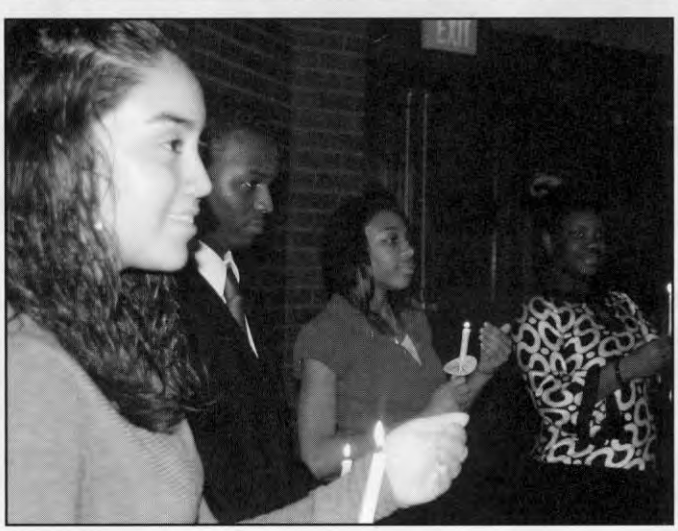
Achievement

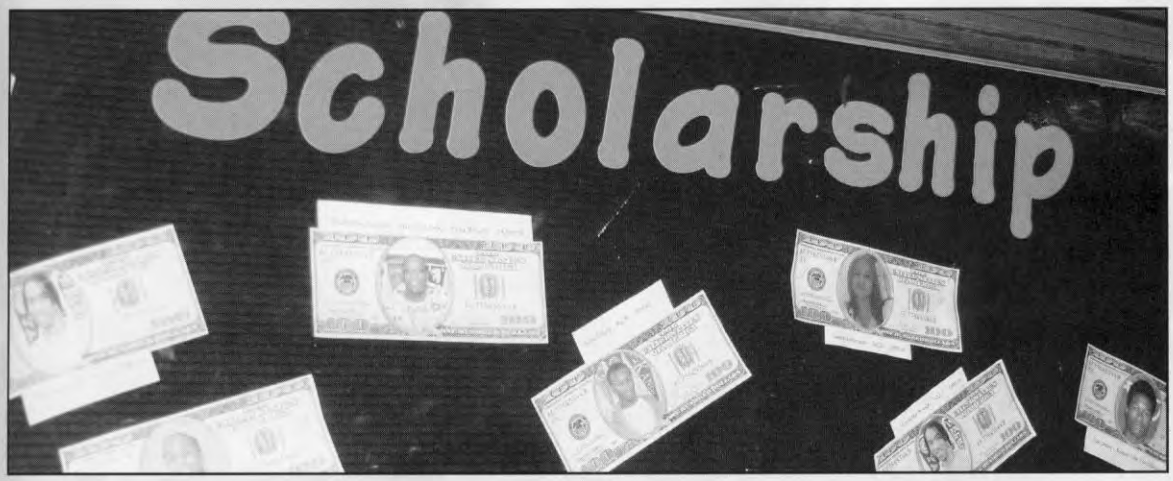
Achievers are students who are good at a subject or a sport and work to be exceptionally good, or meet their individual goal. It could be in an academic area: reading or math, or it could be a skill: playing an instrument or a sport. Achievement could also be getting into your college of choice or making Honor Roll or getting a scholarship. Achievement is usually gained through hard work, perseverance and determination.





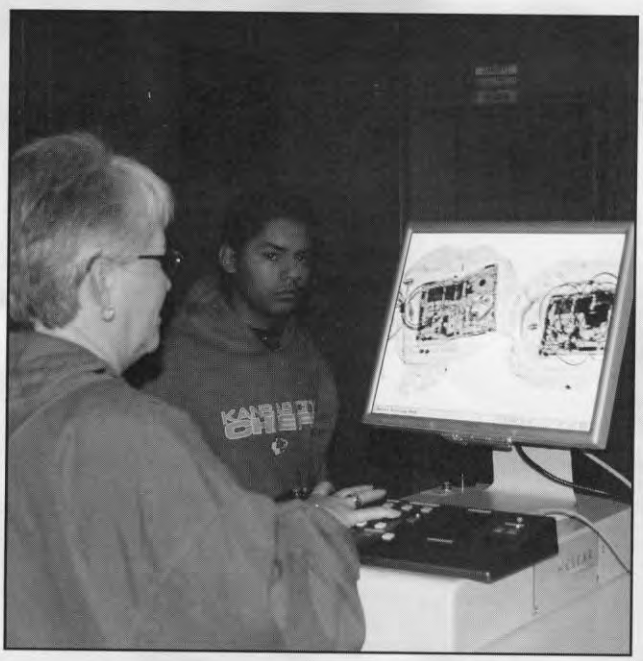


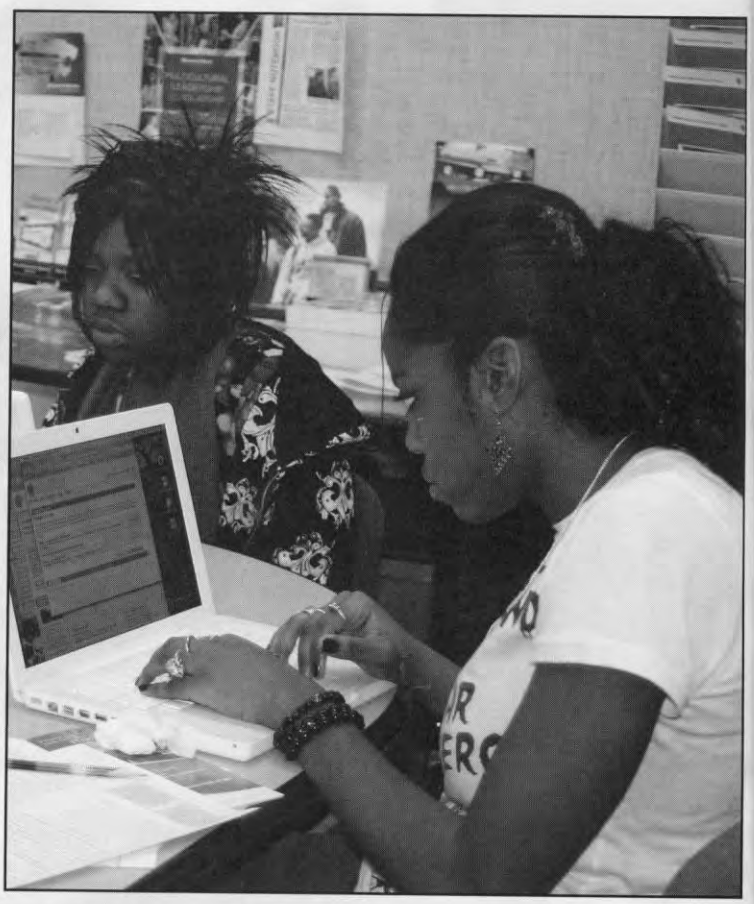


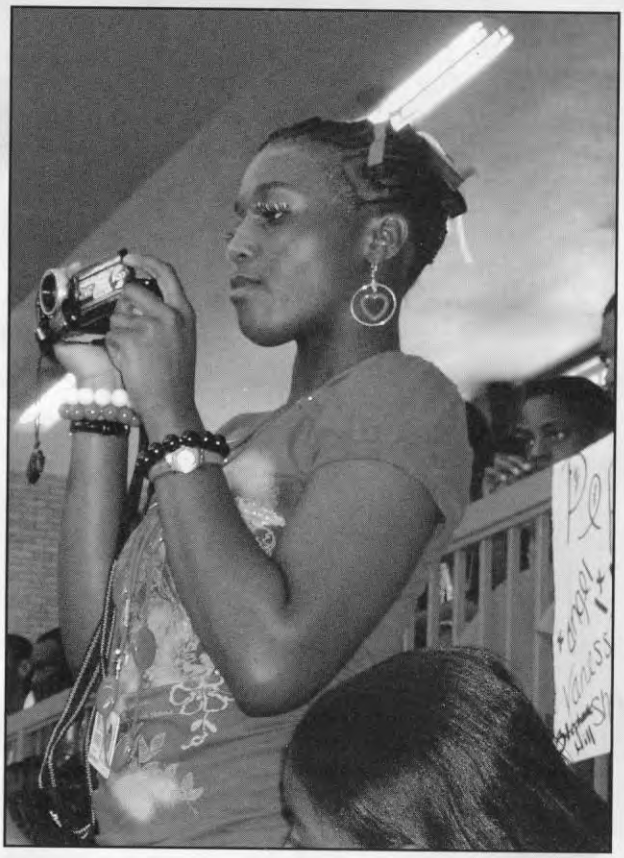


Scholarship

K-STATE
DICKINSON
YALE







A presence in our everyday lives

Technology

We are overwhelmed by technology. Computers. Digital cameras. Cable TV. The Internet. I-Pods. X-Box games. And the cell phone we can't live without. Even metal detectors. This is the technology that is part of our daily lives. In the classroom, at home and in between. For fun, for school, for play. Tools that teach and entertain.

STUDENT LIFE

Student Governrnent

STUCO

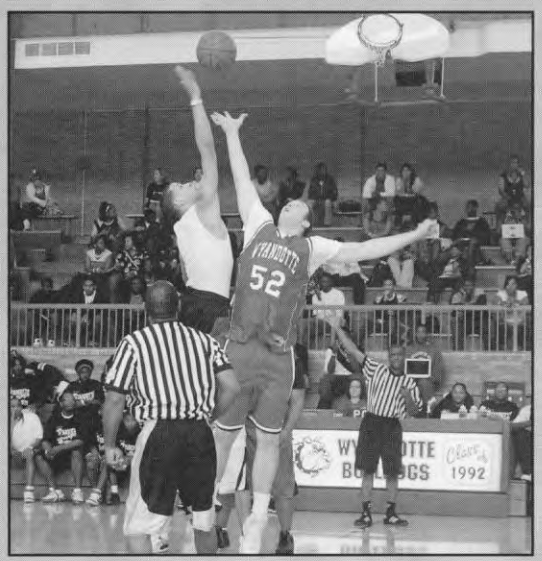
One of the most visible groups in school, the Student Government Organization sponsors numerous events during the year. The annual blood donation and food drives are community service projects that help the community.

Activity * Involvement * Participation

Senior Board

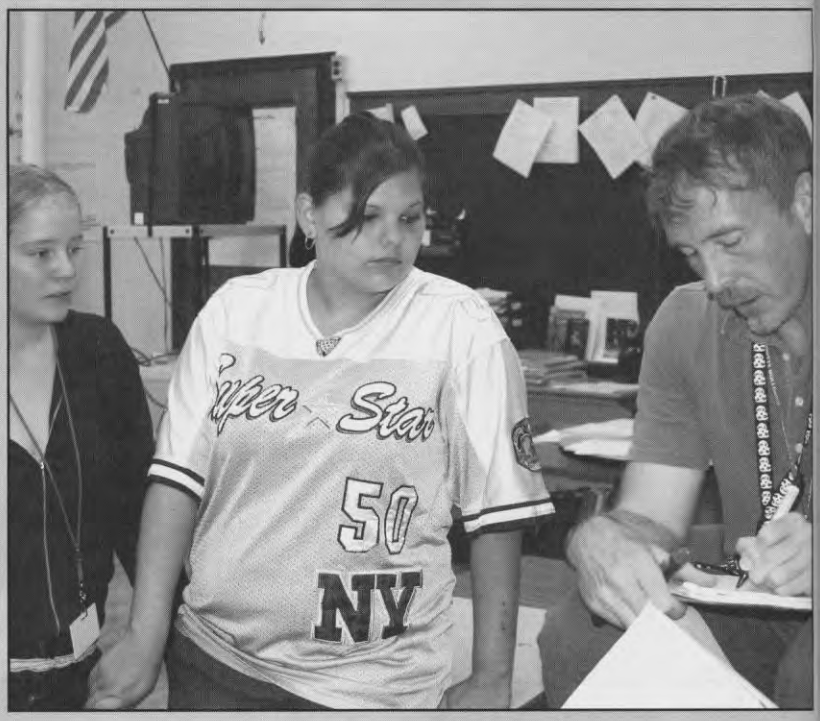
Extracurricular * Experience * Fun

The Senior Board has responsibility for many of the events that are important to seniors. The prom and the senior breakfast are major projects. It also has input in planning graduation. The Senior vs. Faculty basketball game is always a crowd pleaser.

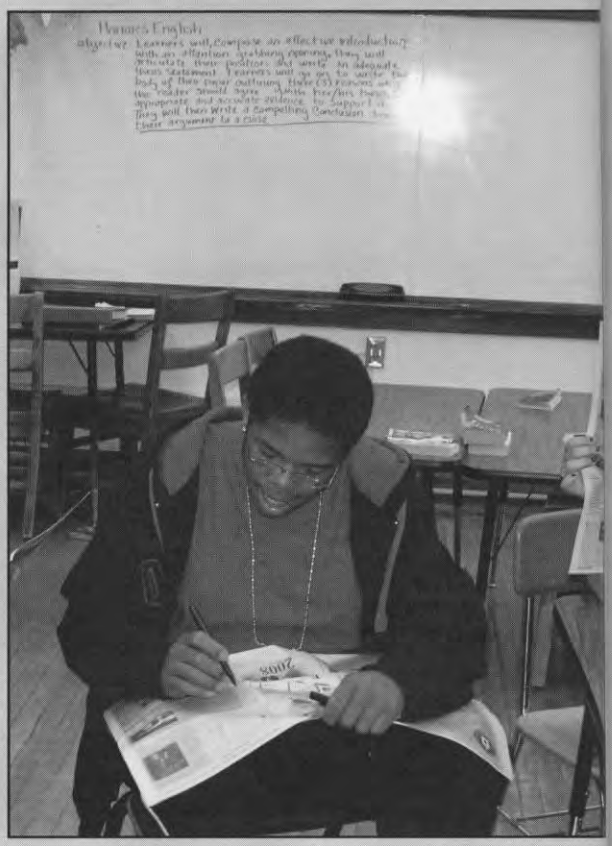


the Pantograph

The student newspaper and yearbook have a long tradition at Wyandotte. *The Pantograph* provides information and explores issues of interest to students and the school community. The *Quiverian* yearbook chronicles events and memories of the year. Students in publication, journalism and graphic arts classes collaborate on these publications.



Activity * Involvement * Participation



Extracurricular * Experience * Fun

"Researching and arguing a point-of-view on a national question: this year related to mandatory student volunteer service."

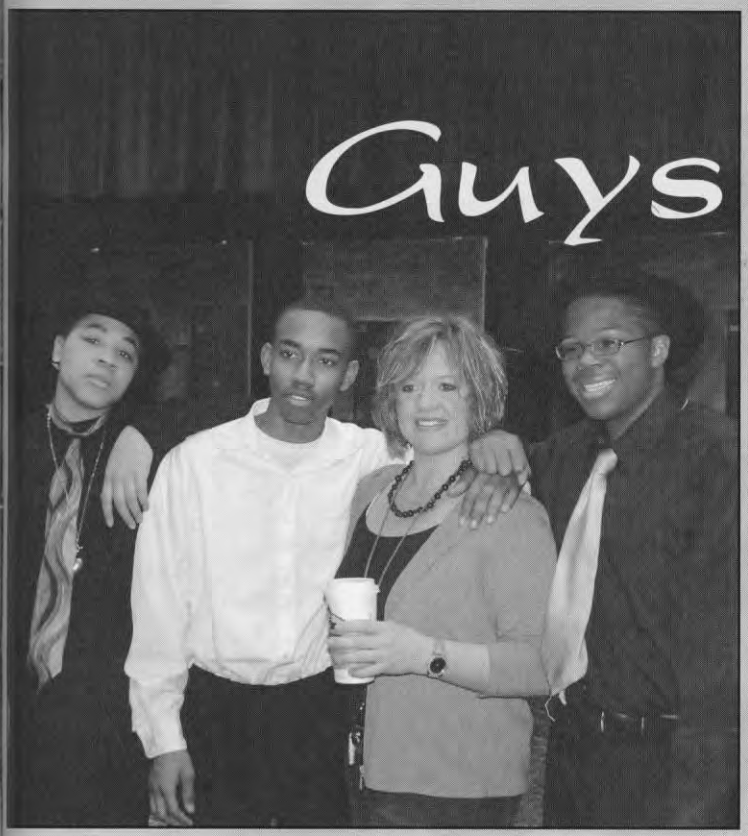
Student Expression

Debate &

Activity * Involvement * Participation

Forensics

"Interpretive readings or extemporaneous responses are performed in competition including both solo and duo categories."



A Musical Theater Performance

Guys & Dolls

The glamorous gambling life of New York gangsters filled the stage when "Guys and Dolls", the Frank Loesser musical was presented by the the theater and music programs. The cast had fun singing of horse race gambling, dice games in the sewer and love.

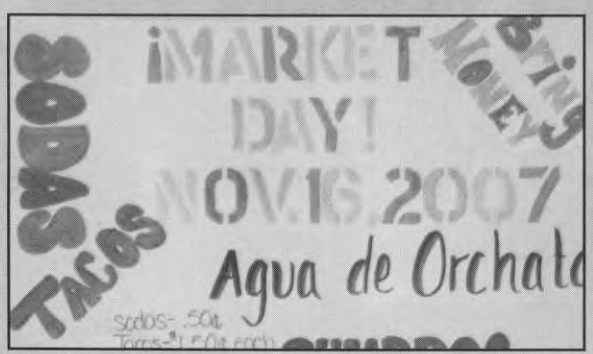
Extracurricular * Experience * Fun

Practical Business Skills

DECA

The Wyandotte DECA Chapter gives students practical experience developing a business concept, writing advertising and marketing plans and arranging for financing. Market Day is a similar experience for students who make their own products for sale.

Activity * Involvement * Participation



Extracurricular * Experience * Fun

ROBOTICS

Robots are becoming a bigger part of our life every day. Students on the Robotics team built a robot from scratch and traveled to Denver to compete. Each year the team grows and this year finished in the top half.

the Great Outdoors

The Science Achievers continued a tradition of going on camping trips to explore the environment.

This year's trips inlcuded visits to Colorado and the caves in the Missouri Ozarks.

Soccer Excellence

Dedication to the cause does have its rewards! After working for many seasons to build a team, the Bulldog soccer program found its reward. A KCK League Championship. Building on early success, the team was able to maintain a winning attitude that it rode into post-season play.

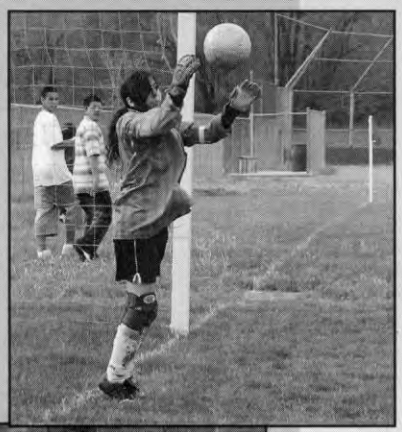
Girls Soccer



When 24 Lady Bulldogs piled off the bus at Harmon on May 5th, there was great excitement and enthusiasm. It was the first and only game of the season, but it marked a new beginning. Starting in the Spring of 2009 girl's soccer will be a full fledged varsity sport. But for this day, playing a real game, rather than practicing was the GOAL!

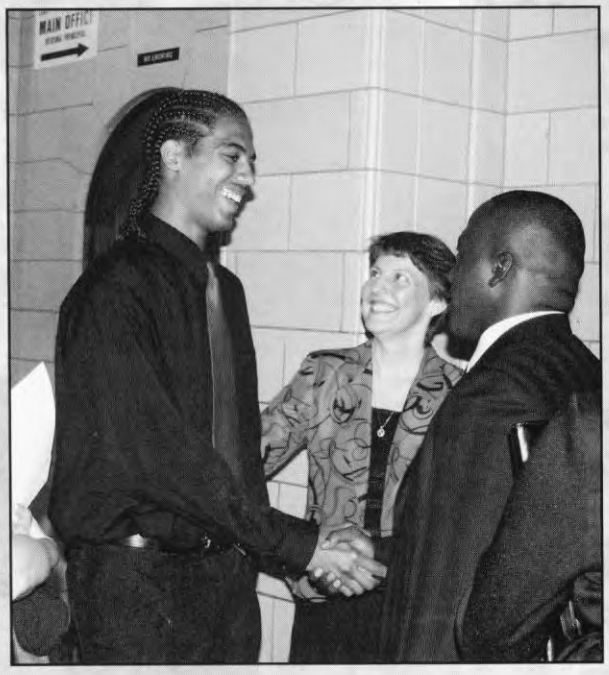
National Honor Society

The National Honor Society recognizes students who demonstrate scholarship, service, leadership and character. This year 21 students were inducted.

Mark Dupree, an attorney and 2000 Wyandotte graduate and NHS member, was the guest speaker. His inspirational message reaffirmed that the NHS students had already made choices that showed they wanted to make a difference.

He challenged them to "continue doing what you are doing," adding that through liberating ourselves, we liberate others. He encouraged each of them to not fear being inadequate, but to recognize they are, individually and as a group, powerful beyond measure.

During the ceremony, he joined Mrs. Jocelyn Gaitan, NHS adviser, NHS members and other alumni for the traditional candle lighting.



Recognizing Excellence

Wyandotte High School 2008 National Honor Society

Seniors: Destiny Goston, Seth Irving, Phillip Jones, Niang Kim**, Daniel Kirkpatrick***, Jacqueline Mera, Sandra Morales,Maria Ramirez***, Dulce Sanchez, Deandre Tatum***

Juniors: Yvette Antunez**, Tonya Buck**, Veronica Davis**, Tawana Evans**, Walter Frazier**, Lorenzo Garcia**, Samantha Garcia**, Iggy Hernandez, Jeffrey Hollinshed**, Xiu Yue Liu**, Delisa Randle**, Osmar Rodriguez, David Smith**, Crystal Tello**,Danielle Weakly**, Regina Witt

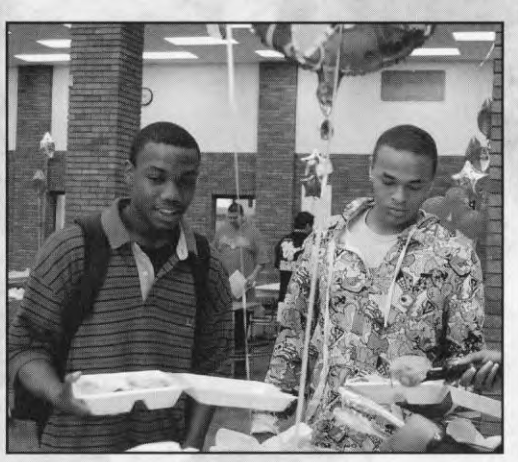
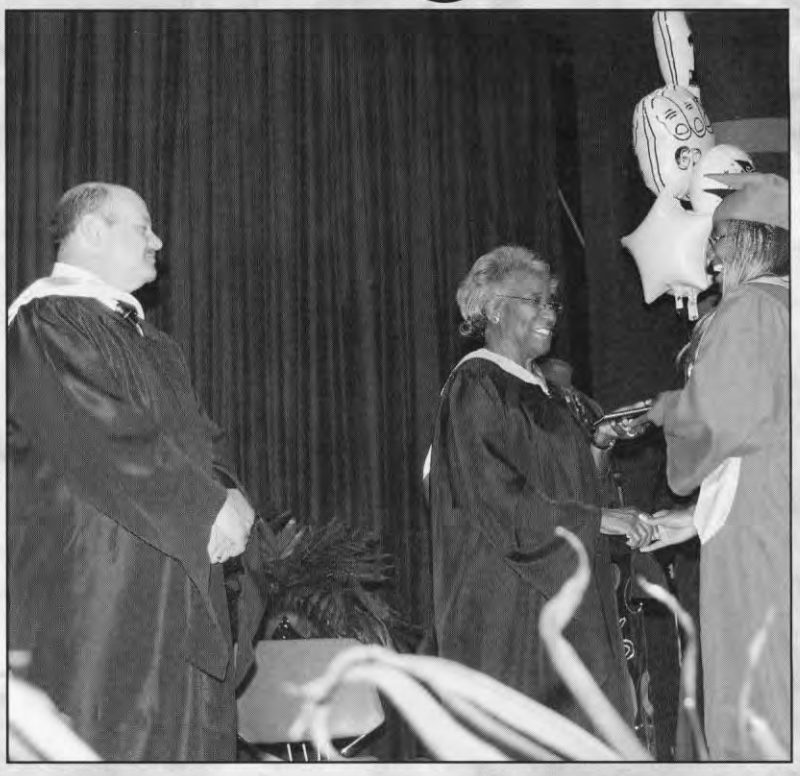
The Final Day



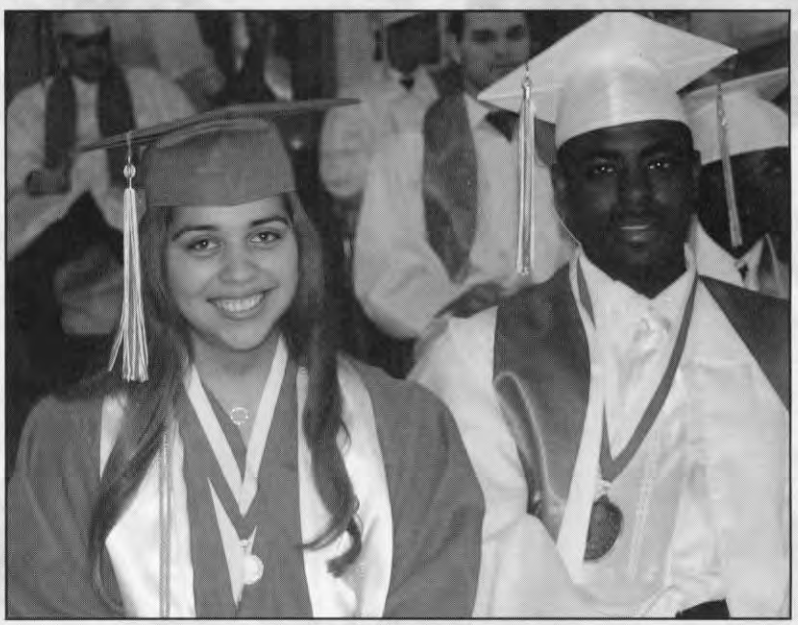
Success is Rewarded on Graduation Day

May 15 was a day for Wyandotte High School graduates to celebrate a major life accomplishment...high school graduation. The graduates filed into Memorial Hall to receive their diplomas, but were also asked to reflect on their past and consider their future.



Valedictorian Maria Ramirez and Salutatorian Michael Dwyer suggested the graduates had already had success and were a step closer to their dreams. They challenged graduates to hold fast to their dreams and move forward to achieve them.

Mr. James Antos, school district administrator, charged the students to remember their past and use it as a springboard to greater success.



Among the many activities including orchestra and choir performances, each graduate heard their name announced and received their diploma and the congratulations of administrators, teachers and peers. Perhaps most importantly, they joined their families in celebration.

And given the message of the evening they may have been thinking: "Where do I go from here?" As a Wyandotte High School graduate, they know they are prepared to move forward into the future.

Celebrating Transitions

Transitions are part of life.
Students graduating and looking forward to new experiences.
Teachers, counselors and staff retiring after many years of dedicated service,
while others move on to face new responsibilities and challenges.
But one thing remains constant:

Once a Bulldog, ALWAYS a Bulldog!
